Welcome to the Regenerative Organic Alliance (ROA)

Thank you for joining a vibrant community of innovators, thought-leaders, and change-makers committed to advancing Regenerative Organic practice across the supply chain.

Why Your Registration Matters

Your commitment strengthens not only your business - it also contributes to the broader, global movement toward sustainability, resilience, integrity, and transparency in regenerative organic agriculture and commerce.

ROA is implementing a Traceability System, starting with Fiber & Materials programs. To continue building and strengthening Regenerative Organic Certified® farms, programs, including consumer-facing production claims, all supply chain partners will be required to register with ROA and supply a current chain of custody certification, specifically Organic Content Standard (OCS) or Global Organic Textile Standard (GOTS). We are offering a basic registration with a basic listing in the ROC™ Cotton Sourcing Directory for $500 per year, or a combination of Registration with ROA Membership at $1000 per year, which will include an expanded listing in the sourcing directory (in development 2026).
