

Farm like the world depends on it.

Declaration of Non-ROC Content for Textiles Regenerative Organic Certified™

Enterprise Name:

Primary address:

This declaration is based on the requirements of the ROC Framework, ROC Labeling Guidelines, and Textile Guidelines.

Note: Finished product that contains at least 50% and less than 95% ROC material by weight may use the “Contains Regenerative Organic Certified” with the provision that the non-organic content meets allowable production methods.

This document expires at the end of 36 months or if any changes are made in the finished product contents.

This document confirms that the non-organic contents meet the criteria of NOP standards for allowable production methods and excluded substances (e.g., non-irradiated, non-GMO, etc.).

Name of finished product(s):
