

Native®

Products from nature

1ST FOOD COMPANY IN BRAZIL WITH ROC CERTIFICATION™

SUSTAINABLE ORGANIC PRODUCTION

SOCIALLY RESPONSIBLE

CARBON NEUTRAL

ORGANIC SUGAR

Native has a rich history of sustainable production, respecting people and the environment through the implementation of innovative projects in the relationship between man and the earth. Decades without sugarcane burning combined with regenerative practices of organic management made available the main resources necessary for the survival of faunal populations: food, reproduction, and shelter. Among the main results, there was a significant increase in biodiversity and population stability of more than 340 different species of higher vertebrate animals on our farms. With that, we were the first food company in the world to achieve the certification of an ethical sourcing system granted by UEBT.

We are pioneers in regenerating nature

Native is the 1st food company in Brazil to receive ROC certification - Regenerative Organic Certified™ - for its contribution and experience with Regenerative Organic Agriculture. The certification authenticates companies that effectively contribute to soil regeneration, valuing animal welfare and the dignity of rural workers. Producing sustainably while regenerating the environment for future generations is part of our commitment to nature.
