In-Kind Contributions

In-kind contributions are an important part of supporting this event, particularly during the *Field-Notes & Friends Happy Hour*. As we consider product support, we also want to be mindful of our hosts at **The Ecology Center**, whose values and carefully curated offerings set the tone for the experience. All in-kind products should align with the center's mission, standards, and most importantly, the on-site food and beverage program to ensure cohesion and respect for their space.

In-kind submissions will be reviewed on a case-by-case basis. Beverage donations are especially encouraged for Happy Hour, provided they complement the regenerative organic and community-centered ethos of the ROA and The Ecology Center.

Together We ROC™ is more than a gathering—it's a catalyst for strengthening the Regenerative Organic movement and the partners who champion it. Your support helps ensure these conversations, farm-level experiences, and community connections continue to grow and inspire action across the industry. We invite you to join us as a partner and stand alongside the organizations moving this work forward. Please reach out! we'd love to explore how we can collaborate.
